## New Product Release – April 2010 Parts for Caterpillar Application

**R-10R2780 Injector, Remanufactured**  
**R-10R2781 Injector, Remanufactured**  
**R-10R2782 Injector, Remanufactured**

Remanufactured Electronic Unit Injectors for popular Caterpillar 3406E and C15 on highway engine applications are now available from Interstate-McBee. Part numbers that are now available are R-10R2780, R-10R2781, R-10R2782 (core exchange required). Each Remanufactured injector has:

- New Control Valve
- New O-rings
- New Nozzle Spring
- New Shim
- New Stop
- New High Pressure Washer
- All units are bench tested for correct fuel, timing and pressure
- All nozzles are reground, inspected, matched and flowed

Also available for service of 3406E and C15 cylinder heads-

**M-2274239 Sleeve - Injector**  
**M-2274239ORK O-Ring Kit for M-2274239**  
**M-1895390 External O-Ring Kit**

### **M-2818261 Sleeve Assembly - Exhaust**

This new exhaust manifold sleeve is used on later model 3406E and C15 engine applications. The M-2818261 sleeves include the proper high temperature graphite composite gaskets riveted in place to the metal sleeve assembly. Contact the Parts Professionals at Interstate-McBee for proper engine applications.

### **M-2128179 and M-2128180 Shaft Assemblies, Water Pump**

New shaft assemblies are available for servicing fresh water and raw water pump applications for Caterpillar 3500 engine applications. These high quality US manufactured shaft assemblies are constructed from high quality raw materials with the proper heat treatment for expected service life. Contact the Parts Professionals at Interstate-McBee for proper engine applications.

## New Product Release – April 2010 Parts for Cummins Application

### **M-4089154 Ring Set**

Piston rings are now available for Cummins ISX engine applications with articulated (2 piece) piston applications. These stainless steel rings incorporate the latest design and surface finish that is required for use in the hardened cylinder liner M-4089153 also available from Interstate-McBee. Some features of the M-4089154 ring set include:

Top Ring - Hardened Stainless Steel, Phosphate Coating Top, and Hard Chrome Plated bottom.

Intermediate Ring - Alloy Cast Iron, Phosphate Coating

Oil Control Ring - Hardened Stainless Steel, Gas Nitridited.

### **M-3939284 Cummins® ISC Rocker Cover Gasket**

Now available from Interstate-McBee:

The M-3939284 rocker cover gasket is now available from Interstate-McBee. This integral seal style gasket is used with the center bolt type rocker covers found on the popular ISC CAPS (Cummins® Accumulator Pump System) engine models produced from 1998 to 2002. This gasket used in conjunction with the five (5) M-3942659 mounting bolt isolators assures proper valve cover isolation and sealing. These items are all currently available at Interstate-McBee.
