

INTERSTATE-McBEE

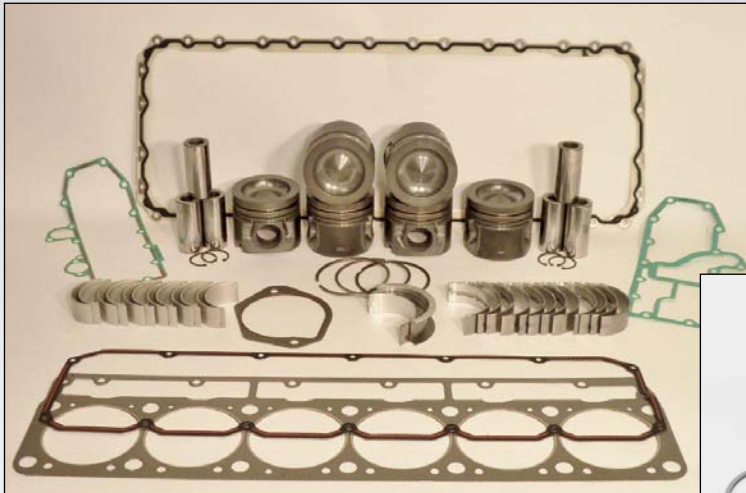

Serving the diesel and natural gas industry for over 60 years.

New Product Release – February 2013

More engine kit coverage for Caterpillar® C7 engines from Interstate-McBee

M-2627330 phosphate coating and graphite coated skirts.

Interstate-McBee is now stocking engine overhaul kits, piston kits and gasket kits for the popular C7 engine applications. The 3 new pistons feature complete phosphate coating along with graphite coated skirts for reduced friction. In addition to the low friction coatings, the M-2627330 piston features oil gallery cooling for high horse power applications. The new Interstate-McBee custom gasket kits contain the M-1662905 integral seal (reusable) oil pan gasket in the overhaul and inframe overhaul set. A graphite composite head gasket that features multiple reinforcement layers for increased durability is also contained in all three sets. Cylinder liner repair sleeve part number M-1077604 is also available for repair of the cylinder bores.
