

INTERSTATE-McBEE

Serving the diesel and natural gas industry for over 60 years.

New Product Release – October 2011

Additional Component Coverage for Caterpillar® C12 & C15 Engines from Interstate-McBee

- M-1154517 Oil Cooler Assembly C12**
- M-2237962 Oil Cooler Assembly C15**
- M-1349807 Oil Cooler Installation Kit C12**
- M-3483682 Oil Cooler Installation Kit C15**

The 'NEW' oil cooler assemblies listed here are competitively priced and eliminate the additional expense of "core charges" and shipping costs associated with remanufactured assemblies.

M-2296259 Connecting Rod Pin Bushing C15

Interstate-McBee announces the M-2296259 bushing is now available. This quality component is used to service connecting rods in the popular C15 truck engines utilizing one piece steel piston technology.

M-7E4195 Bolt-Connecting Rod

Adding to our 3406 and C15 engine coverage; we now have available new connecting rod bolts part number M-7E4195 for the popular 7E5996 and 9Y6054 connecting rods found in 3406B, 3406C, 3406E and C15 Engines. These high strength high quality bolts are manufactured to Interstate-McBee quality standards in the USA.

- M-2341904 Front Structure Gasket Set C15**
- M-2341877 Rear Structure Gasket Set C15**
- M-1559524 Seal – Integral**

More gasket sets available for C15 engines from Interstate-McBee. These gasket groups contain all the gaskets and seals needed to replace the front or rear structure components including the crankshaft seals. The M-2341904 contains the recently introduced M-1559524 front cover seal. These additional sets complement our popular MCB style overhaul, in chassis and cylinder head sets.

New Product Release – October 2011

New Cummins® B-Gas 5.9L engine kit coverage from Interstate-McBee

Interstate-McBee is pleased to announce four new engine repair kits are now available for the B5.9G, G6BT5.9 and GTA5.9 natural gas models. The in-frame engine kits include piston kits, connecting rod bearings, a main bearing set, upper gasket set and an oil pan gasket. The overhaul engine kits include piston kits, connecting rod bearings, a main bearing set, upper gasket set and lower gasket set. The new kit numbers and basic application data are listed below.

Kit Number	Description	Note
IF3802630	In-Frame Engine Kit	For units with fracture split connecting rods
IF3802630M	In-Frame Engine Kit	For units with machined split connecting rods
OH3802630	Overhaul Engine Kit	For units with fracture split connecting rods
OH3802630M	Overhaul Engine Kit	For units with machined split connecting rods

Oversize cam bushings are now available for Caterpillar 3406E, C15, C16, and C18 applications and are also available for Cummins ISX and QSX applications. These oversize bushings help our customers service cylinder heads that are damaged in the camshaft bearing bores.

Oversize #	Description	Standard #	Note
MCB7105	Oversize Camshaft Bushing 4 per - 1.0mm	M-3680580	Now Available
MCB7106	Oversize Camshaft Bushing 3 per - 1.0mm	M-3680581	Now Available
MCB7114	Oversize Valve & Brake Camshaft Bushing - 1.0mm	M-4026423	Now Available

For Caterpillar 3406E, C15, C16 and C18

Oversize #	Description	Standard #	Note
M-2170751	Oversize Camshaft Bushing 7 per - .010	2165582	Now Available
M-2170752	Oversize Camshaft Bushing 7 per - .030	2165582	Now Available
M-2613430	Oversize Camshaft Bushing 7 per - .050	2165582	Now Available
M-2613429	Oversize Camshaft Bushing 7 per - .070	2165582	Coming Soon
