New Product Release – October 2012

New Inframe Engine Kits for Navistar® 466E MY2004 from Interstate-McBee

M-1879703C94 Inframe Engine Kit – 466E Model Year 2004

M-1879705C93 Inframe Engine Kit – 466E Model Year 2004

These engine kit additions expand our broad Navistar® program to include the model year 2004 engine range. These engines incorporate four valve cylinder heads, second generation HEUI injection and EGR exhaust technology. For complete engine overhaul the additional modular style gasket sets required are also available from Interstate-McBee. Reference engine serial numbers for proper kit selection.

New Gasket Kits for Navistar® 466E/570E Engines from Interstate-McBee

M-1842663C93 Gasket Kit – Front Cover / Front Half MY2004

M-1842662C91 Gasket Kit – Front Cover / Rear Half MY2004

With the release of these front cover sets Interstate-McBee offers complete gasket set coverage for model year 2004 Navistar® 466E and 570E engines. Use these sets in conjunction with the engine kits above for complete out of chassis engine overhaul.

Additional Navistar® Electronic Sensor Coverage from Interstate-McBee

M-1807369C2 Oil Pressure Sensor – Used on 466E & 530E Engine Models

Electronic engines depend on specific sensors and switches for precise engine control. Pictured here is the latest addition to our electronic component coverage for Navistar® 466E & 530E applications. This sensor monitors the oil pressure. Call Interstate-McBee for a current list of engine sensors available.

New Product Release – October 2012

New Inframe Engine Kits for Caterpillar 3116 / 3126 from Interstate-McBee

- MCIF7545** Inframe Overhaul Kit – 3116 with M-1077545 Crown
- MCIF4621** Inframe Overhaul Kit – 3126 with M-1504621 Crown
- MCIF4983** Inframe Overhaul Kit – 3126 with M-1334983 Crown
- MCIF3282** Inframe Overhaul Kit – 3126 with M-1723282 Crown
- MCIF5044** Inframe Overhaul Kit – 3126 with M-1335044 Crown

Additional coverage for 3116 and 3126 engines is now available. New piston crowns listed above are now available expanding Interstate-McBee's product offering for these popular engine applications including on highway trucks, vehicular and marine. Interstate-McBee uses

only forged steel piston crowns for proper strength and durability. The forged steel piston crowns feature extruded bronze bushings for proper load carrying properties. We also offer major overhaul kits along with piston kits with the crowns listed above.

Additional 3116 crown part numbers M-611210, M-614248 and M-1077553 along with C7 piston part numbers M-2627330, M-2629288 and M-2382698 are coming in November 2012. Contact Interstate-McBee for exact delivery dates along with engine kit availability.

Additional Cummins® ISB Gasket Coverage from Interstate-McBee

- M-3966342** Cylinder Head Gasket Thick – Overbore Specific 5.9L EGR Engines
- M-3966343** Cylinder Head Gasket Thin – Overbore Specific 5.9L EGR Engines

Both of these thickness graded gaskets are now available individually at Interstate-McBee. When over boring or using salvage sleeves on an ISB 5.9L EGR engine one of the above head gaskets will also be required. Refer to the OEM service literature to properly check piston protrusion and determine which graded gasket should be used.

New Product Release – October 2012

Exclusive Custom Kit Coverage from Interstate-McBee

M-4995001 Cam Bushing Kit – ISX/QSX Cummins® Models

Interstate-McBee has added the M-4995001 Cam Bushing Kit to our custom kit lineup. This kit contains the injector and valve camshaft bushings required to re-bush one ISX/QSX dual camshaft cylinder head. Order one number and get all the bushings. We take customer requests seriously at Interstate-McBee.

Rocker Arm Service Kits are now Available for Series 60 Engine Applications

- A-23538247PR – Pin and Roller Kit Exhaust Rocker Arm**
- A-23532937PR – Pin and Roller Kit Intake Rocker Arm**
- A-23513939PR – Pin and Roller Kit Injector Rocker Arm**

Interstate-McBee is now servicing ceramic pin and roller kits for popular Detroit Diesel® Series 60 engine applications. These service kits include the latest design ceramic rollers for durability. Be sure that the pins are properly aligned with the oil feed gallery during installation. Alignment marks are stamped on the axel pins to aid in assembly. Service bushings A-8929059 (15mm wide) and A-8929536 (20mm wide) are also available. These bushings must be finished to final size after installation.

Fuel Injector Kit for Detroit Diesel® Series 60 from Interstate-McBee

A-23537123 – E3 Injector Seal Kit Series 60 DDEC-VI

This kit contains the two injector o-rings, the nose washer and the hold down bolt which is not to be reused. This kit is used with the E3 injectors used on DDEC-VI engines.
